Q 4 (A)

15 marks

In a factory the product passes through 2 process, A and B. A weight loss of 5% is allowed in process A and 2% in process B, nothing being realized by disposal of the wastage. During April 2017, 10,000 units of material costing Rs. 6 per unit were introduced in Process A. The other costs were as follows:

Particulars	Process A (Rs.)	Process B (Rs.)
Materials	-	-
Labour	10,000	12,000
Overheads	6,000	4,600

Abnormal loss is sold at Rs. 10 per unit. The output was 9,400 units from the process which was transferred to Process B. 9,200 units were produced by Process B, which were transferred to the warehouse. Prepare Process Accounts A and B, assuming there were no opening stocks of any type. Also prepare Normal Loss a/c and Abnormal Loss a/c.

OR

Q 4 (B)

15 marks

A product passes through 3 process and 40,000 units were introduced in Process A at cost of Rs. 30,000. The following further information is available:
