

10/04/15

TYB-SC (vi)

Plant Bio-Tech & Env. BioTech

Q.P. Code : 14613

(2 1/2 Hours)

[Total Marks : 75]

- N.B. : (1) Attempt all questions.
(2) All questions carry equal marks.
(3) Draw neat labelled diagram wherever necessary.

1. (a) Give one name / one example of (any three) 3

- (i) Plant Tissue Culture medium
- (ii) Micronutrient
- (iii) Auxin
- (iv) Sterilant used for explant sterilization
- (v) Method used to sterilize PGRs
- (vi) Method of micropropagation

1. (b) Explain (any two) 12

- (i) The role of micronutrients in MS medium
- (ii) Any two methods of sterilization required for PTC work
- (iii) Callus culture and give its applications
- (iv) Regulation of Regeneration

2. (a) Give one example of (any three) 3

- (i) Obligate pathogen of insect
- (ii) Slow grower biofertilizer
- (iii) Extender used in dust preparation of bioinsecticide
- (iv) Animal used to check the safety of bioinsecticide
- (v) Non symbiotic nitrogen fixer
- (vi) Fungi used as biocontrol agents

2. (b) Attempt the following (any two) 12

- (i) Explain surface and invivo culture method for production of biological insecticide
- (ii) Describe desirable properties in organism to be used as biocontrol agent
- (iii) Explain the method of strain selection for biofertilizer inoculants
- (iv) State with example an alternative to the use of chemical insecticide and elaborate on its advantages

3. (a) State the significance / importance of (any three) 3

- (i) BOD
- (ii) TDS

TURN OVER

- (iii) Phytoremediation
- (iv) Renewable energy source
- (v) Exsitu bioremediation
- (vi) Solar energy

(b) Answer the following (any two)

- (i) Explain dairy waste treatment
- (ii) Explain remediation of contaminated sites with metal by plant species
- (iii) Describe ethanol production
- (iv) Elaborate on production of hydrogen by microbiakaction

4. (a) Give the full form of (any three)

- (i) EPC
- (ii) WIPO
- (iii) PBR
- (iv) IPR
- (v) TRIPS
- (vi) UPOV

(b) Attempt the following (any two)

- (i) Discuss the protection of Biotechnological inventions
- (ii) Elaborate on the "Protection of plant varieties"
- (iii) Justify - "Several factors influence the decision to protect an Intellectual property in more than one way"
- (iv) State the merits and demerits of IPR

5. Write Short notes on (any three)

- (i) Biotransformation
- (ii) Patenting of genes and DNA sequences
- (iii) Advantages of micropropagation
- (iv) Any one Biogas plant
- (v) Seed inoculant
- (vi) Issues related to IPR
