(2½ Hours)

N.	 B.: (1) <u>All</u> questions are <u>compulsory</u>. (2) Make <u>suitable assumptions</u> wherever necessary and <u>state the assumptions</u> made 	
	(3) Answers to the <u>same question</u> must be <u>written together</u> .	
	(4) Numbers to the <u>right</u> indicate <u>marks</u> .	
	(5) Draw <u>neat labeled diagrams</u> wherever <u>necessary</u> .	
	(6) Use of Non-programmable calculators is allowed.	
l .	Attempt <u>any three</u> of the following:	1
ì.	Discuss the importance of header file in raster model? Explain with suitable example.	60,
).	Explain Quad Tree with example.	
c.	Explain cell-by-cell encoding raster data structure.	S. B.
1.	List different components of GIS. Explain in short.	\$\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\
2.	Attempt <u>any three</u> of the following:	1(
ì.	Explain Affine Transformation.	
).	Explain various new data creation methods.	
: .	What is the importance of control points in affine transformation.	
1.	Write a short note on root mean square.	
3.	Attempt any three of the following:	1(
ì.	Explain the join and relate operations of tables in relational database.	
).	Write a short note on Map Production.	
: .	Write a short note on normalization.	
1.	Explain the Visual Hierarchy with example.	
1.	Attempt <u>any three</u> of the following:	10
ì.	Write a short note on attribute data query.	
).	Write a short note on feature selection by graphic data query.	
: .	Describe brushing as a technique for data exploration.	
1.	Explain with suitable example the query by cell value type of raster data query.	
5.	Attempt <u>any three</u> of the following:	1(
1.0	Explain spatial autocorrelation with example.	
). V	Explain the following map manipulation operations with example.	
	i. Dissolve ii. Append	
	Explain the reclassification local operation of raster.	
	What are the applications of overlay?	
5.6	Attempt <u>any three</u> of the following:	1(
i?	Write a short note on spatial interpolation.	
).). (Explain the Inverse Distance Weighted Interpolation local method.	
	Explain the Thin-Plate Splines local method.	
i.	What is Kriging? Explain.	

[TURN OVER]

[Total Marks: 75]

68314 Page 1 of 2

- 7. Attempt *any three* of the following:
- a. List and explain GIS operations related to data analysis.
- b. Write a short note on metadata.
- c. Explain file and hierarchical database with suitable example.
- d. Explain feature selection by spatial relationship data query with suitable example.
- e. Explain the raster data generalization operation with suitable example.
- f. List global methods and explain any one.
