## Bachelor of Pharmacy (B.Pharm) (CBSC Pattern) Second Semester BP 201T - Human Anatomy And Physiology-II

P. Pages : 2 Time : Three Hours						GUG/W/18/10878 Max. Marks : 75			
	Notes :	1. 2.							
1.	M	ultiple	e choice question [answer	tions]	20				
	<ol> <li>Subdural space in the brain is present in between:-</li> <li>A) Pia meter and dura mater</li> <li>B) Dura mater and arachnoid mater.</li> <li>C) Arachnoid mater and pia meter</li> <li>D) In between cerebral hemisphere</li> </ol>								
	2)		ombencephalon is the nan Forebrain Hindbrain	ne of B) D)	Midbrain Medulla oblongata.				
	3)		e second largest part of hu Cerebellum Medulla	ıman brain i B) D)	s: Cerebrum Diencephalon				
	4)	A)	a reflex arc the connector Spinal cord Receptor	neuron (inte B) D)	· · ·				
	5)	-	hincter of Oddi is located Liver Duodenum	in:- B) D)	Rectum Gall bladder				
	6)	A)	e absorption of fats and gl Ileum Large intestine	ycerol takes B) D)	Stomach				
	7)		e is synthesized from wor Pancreas Kidney	n out RBCs B) D)	by the. Liver Spleen				
	8)		ckets is caused due to definition Vitamin A Vit - B <sub>1</sub>	ciency of B) D)	Vitamin C Vit - D				
	9)	-	vxoedema is caused by the Parathyroid Thyroid	e deficiency B) D)	of a hormone secreted by Hypothalamus Pineal body	<i>y</i> :-			
	10	-	gland that disappears in th Hypothalamus Adrenal Cortex	e adult but i B) D)	s active during childhood Parathyroid Thymus	l is:-			
	11	A)	nin is hormone secreted by Pancreas Liver	y the B) D)	Kidney Ovary				

12)	A)	dulla and cortex are the parts of Pituitary	B)	Thymus					
	C)	Adrenal	D)	Hypothalamus.					
13) One of the following is not a paired organ in the male reproductive									
	A)	Seminal Vesicle	B)	Prostate gland					
	C)	Epididymis	D)	Cowper's gland.					
14)	Cor	pus luteum is formed of dead:-							
,		RBCs	B)	WBCs					
	C)	Chorion	D)	Graafian follicle					
15)	The fertilization in female takes place in the:-								
15)		Vagina	B)	Oviduct					
		Uterus	D)	Urethra					
10			/						
16)		lle's loop is	D)	Vshaped					
	,	U-shaped L-shaped	B) D)	V-shaped Shapeless					
	,	1	D)	Shapeless					
17)		al fascia is the name of	-						
		Tissue of medulla	B)	Tissue of Bladder					
	C)	Fibrous tissue around Kidney	D)	Fibrous tissue inside kidney.					
18)	Exc	retory unit of kidney is							
	A)	Bowman's capsule	B)	Glomerulus					
	C)	Nephron	D)	Henle's loop.					
19)	Isotonic urine is present in								
		Henle's loop	B)	Distal tubule					
	C)		D)	Blood plasma					
20)	PO <sub>2</sub> stands for:-								
20)		Pure oxygen	B)	Partial oxygen					
	C)	Pressure of oxygen	D)	Partial pressure of oxygen					
	- /	28	/	, , , , , , , , , , , , , , , , , , ,					
Ans	wer t	he following <b>any two.</b>							
A)	Discuss in detail the structure and function of spinal cord.								
B)	Explain in detail the urine formation process of Kidney.								
Ć)	Explain the role and formation of ATP and creatinine phosphate.								
	-								
Ans	wer t	ver the following any seven.							
A)	Explain the anatomy of male and female reproductive systems.								
B)	Explain the structure and functions of thymus gland.								
Ć)	Write a note on protein synthesis.								
D)	Explain the structure and functions of salivary glands.								
E)	Write a note on various disorders of GIT.								
F)	Explain the structure and functions of stomach.								
G)	-	lain the physiology of cerebrun							
H)		te a note on receptors and neuro							
• •	Evaluin the machanism and regulation of requirection process								

I) Explain the mechanism and regulation of respiration process.
