B.Sc. (Information Technology) - I (CBCS Pattern) Second Semester CBCS

UBITT203 - Paper-III : Structured Programming Using C

P. Pages : 2 Time : Three Hours			GUG/W/18/10922 Max. Marks : 80
	Not	es: 1. All questions are compulsory and carry equal marks. 2. Draw neat and labelled diagram and use supporting da 3. Avoid vogue answers and write specific answer related	_
1.	a)	Either: What is variable? How to declare declare variable in C? Explai	n. 8
	b)	Explain basic structure of 'C' program.	8
		OR	
	c)	Write a 'C' program to swap two variables values.	8
	d)	What is Constant? Explain real constants and string constants v	with suitable example. 8
2.	a)	Either: Write a 'C' program which accept selling price and purchasing part seller made profit or loss also point them.	price of an item. Determine 8
	b)	Explain if—else statement along with syntax and example.	8
		OR	
	c)	Write a 'C' program which accept marks of three subjects and c of as student.	alculate total and average 8
	d)	Explain following. i) gets() ii) puts() functions along with example.	8
3.		Either:	_
	a)	Differentiate between while and dowhile loop.	8
	b)	Write a program in 'C' to find factorial of given number.	8
		OR	
	c)	Write a 'C' program for following output 1 1 2 1 2 3 1 2 3 4 1 2 3 4 5	8

	d)	What is Nested Loop? Give syntax of nested for loop with example.			
4.		Either:			
	a)	Explain one-Dimensional Array. How to declare one Dimensional array in 'C'? Explain			
	b)	Write a 'C' program to sort an array using bubble sort method.			
		OR			
	c)	Write a 'C' program to perform addition of two matrices.			
	d)	What is string? How to declare character array in 'C'? Explain.			
5. So		Solve all the questions.			
		a) Explain variable declaration in 'C'.	4		
		b) Explain syntax of switch case statement.	4		
		c) Explain use of break and continue statement.	4		
		d) Explain initialization of one Dimensional Array with suitable example.	4
