Mahindra & Mahindra (M & M) is a major player in the tractor and certain segments of the automobile market in India. After an impressive growth for a few years, the tractor market in India has been stagnating during 1998-99, 2000-01.

Mahindra & Mahindra has been selling its tractors and utility vehicles in foreign market including USA. Some of the components for its products have been sourced from abroad.

M & M has five percent market share in the US market share in the US market in the 28-30 (horse power) HP range M & M has a 100 percent subsidiary in USA, Mahindra USA, with a strong network of 100 dealers.

As a part of the strategy aimed at building a global supply chain, Mahindra USA has signed a memorandum of understanding (MOU) with the Korean tractor major Tong Yang, a part of the \$2 bn Tong Yang Moolsan group, according to which Mahindra will source high horse power (mostly 25-40 hp range) and sell them around the world under the M & M brand name. To start with, the premium range of tractors will be sold in the US.

M & M's current tractor range is more utility oriented and lacks the aesthetic appeal that Tong Yang's tractors have, a must for a strong presence in the US market.

Questions :

1. What are the advantages and disadvantages of global sourcing ?
2. How will the foreign market expansion help M & M ?
3. How does the strategic alliance with Tong Yang benefit M & M ?
4. What are the possible risks of the alliance and how can they be overcome/minimised ?
