[Max. Marks : 50 Figures to the right indicate full marks. 65.1

What is shade? c)

What is Light?

Instructions to the candidates:

Q1) Answer the following :

What is grayscale shading? d)

All questions are compulsory.

What is gesture drawing?

What tint? e)

What is warm colors? f)

What is cool colors? **g**)

What is pigment colors? h)

i) What is type face?

j) What is symmetry.

Q2) Answer the following:

What is 2D and 3D design? a)

What Bones and joints? b)

Explain color balance. c)

d) What is key-line? $[10 \times 2 = 20]$

 $[2 \times 5 = 10]$

P.T.O.

[Total No. of Pages : 2

SEAT No. :

Q3) Answer the following:

- a) How gesture drawing is used.
- b) Write a note on "Head and face".
- c) Name any 10 human muscles?
- d) What is line of action?

Q4) Answer the following:

- a) What is prespective? define all.
- b) Explain the rapid sketches in drawing?
- c) What is Mannequin? Explain with example.

d) Explain volume construction in detail.

F.Y. B.Sc. (Animation) **ANM-102 : BASICS OF ANIMATION** (2021 Pattern) (Semester-I)

Time : 3 Hours] [Max. Marks : 50 Instructions to the candidates: 1) All questions are compulsory. Figures to the right indicate full marks. 2) **Q1**) Answer the following questions : What is "Slow-in-Slow out" in Animation principle. a) Name the different types of Animations? b) What is traditional Animation? c) What is body language? d) What is in between? e) What is Pose to Pose? f) What is thumbnail? **g**) What is "Anticipation"? h) What is squash and stretch? i) Arcs mean by? j) Q2) Answer the following: (any two) $[2 \times 5 = 10]$

- What is sequential drawings? Explain. a)
- What is difference between 2D and 3D Animation. b)
- c) What is Pencil test Animation? Why it is necessary.
- d) What is character Animation?

[Total No. of Pages : 2

 $[10 \times 2 = 20]$

SEAT No. :

Q3) Answer the following (any two).

- a) What is cut-out Animation? Explain.
- b) What is character volume? Explain.
- c) What is Extreme poses?
- d) What is "clean-up"? Explain.

Q4) Answer the following (any two).

- a) Explain Animation principle "Arc"?
- b) Explain "Line of Action"?
- c) Explain Russian Animation (Soyuzmultifilm)
- d) Explain "Disney". (Beginning of Animation).

Time : 2 Hours]

[Max. Marks : 50

Instructions to the candidates:

1) All questions are compulsory.

2) Figures to the right indicate full marks.

Q1) Answer any Ten.

- $[10 \times 2 = 20]$
- a) Which of the tool will cut a path into two different paths?
- b) The path finder tool will _____
- c) A line that is drawn is Adobe Illustrator that finishes. Where it began is called a _____.
- d) Which of the tools would be used to edit a line?
- e) Adobe Illustrator terminology for a drawn line is _____.
- f) Which solution listed below will fill an object?
- g) Which of the tool used to convert araster image to a vertor?
- h) Write the correct procedure to draw a perfect square in Adobe Illustrator.
- i) How do you select a shape that has no fill?
- j) If you wish to edit a shape, you must click an anchor point with _____.
- k) The Illustrator tool which is shown as a white arrow is known as the
- The Illustrator tool which is shown as a completely black arrow is called the _____.

Q2) Answer any two.

- a) How to add color to any trace image?
- b) What is the main use of Adobe Illustrator?
- c) Write about the history of Adobe Illustrator?
- d) What is RGB color and explain the secondary color?

Q3) Answer any two.

- a) How is Adobe Illustrator is different from Adobe Photoshop?
- b) What is graphic designing?
- c) What is the use of Adobe Illustrator in Industry?
- d) Explain hou you can export ICNS icon from Adobe Illustrator.

Q4) Answer any two.

- a) Explain the role of color in creating the vector image.
- b) Explain the export setting in Adobe Illustrator.
- c) What is artboard in Adobe Illustrator?
- d) What is gradiant and swatches?

ANM-104 : INTRODUCTION TO PROGRAMMING LANGUAGES (2021 Pattern) (Semester-I)

Time : 3 Hours]

Instructions to the candidates:

- All questions are compulsory. 1)
- Figures to the right indicate full marks. 2)
- 3) Neat diagrams must be drawn wherever necessary.

01) Answer the following questions.

- Define keyword? List any four keywords used in 'C' programming. a)
- Differentiate between entry controlled and exit controlled loop. b)
- State any four advantages of using function. c)
- What is pointer? Explain with the help of example. d)
- What are the command line arguments? e)
- f) What is difference between getch () and getche ()?
- What is purpose of break statement in 'C' ? Explain with the help of **g**) example.
- Enlist any four format specifier used in 'C'. h)
- Give general syntax to declare one dimensional & two dimensional array. i)
- **i**) List primitive, derived & user defined data types.

Q2) Answer any two of the following questions. $[2 \times 5 = 10]$

- Explain switch case with example. a)
- How string is declared and initialized? Explain any four string manipulation b) functions with example.
- Differentiate between relational and logical operators. c)
- Explain how pointers and arrays are related with example. d)

[Total No. of Pages : 2

SEAT No. :

 $[10 \times 2 = 20]$

[Max. Marks : 50

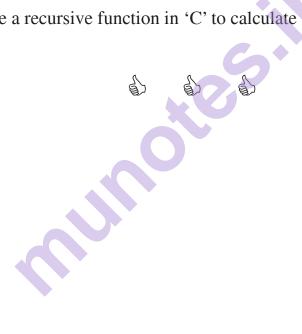

Q3) Answer any two of the following questions.

- Explain arrays in 'C'. a)
- What are the global and local variables? Explain with example. b)
- What is variable? What are different rules to define variables? c)
- d) Explain array of pointers with example.

Q4) Answer any two of the following questions. $[2 \times 5 = 10]$

- Write a 'C' program to check whether entered number is prime or not. a)
- Write a 'C' program to find largest element in an array. b)
- Write a 'C' program to read a string and find length of string without c) using in built function.
- Write a recursive function in 'C' to calculate GCD of two numbers. d)

F.Y. B.Sc. (Animation) **ANM-201 : DIGITAL PHOTOGRAPHY & FILM MAKING FUNDAMENTALS** (2021 Pattern) (Semester-II)

Time : 3 Hours]

Instructions to the candidates:

- 1) All questions are compulsory.
- Figures to the right indicate full marks. 2)

Q1) Answer the following questions.

- Visible light occures between a)
- Long distance photography is facilitated by _____. b)
- has been defined as taking of photography to provide a record of c) social and political situations with the aim of conveying information.
- d) Apperture is for _____.
- SLR stands for e)
- A digital Image is made up of thousands of _____. f)
- Full form of ISO? **g**)
- CCD is a type of _____. h)
- Rules of third is _____rule. i)
- Kodak camera was invented by _____. j)

Q2) Answer any two.

- How Image stabilization feature helps in camera? a)
- What is metering in photography? Explain in detail. b)
- What is color temperature of the light? Write down the unit of color c) temperature.
- What is mean by noise in Digital Photograph? When it is found? d)

 $[10 \times 2 = 20]$

P.T.O.

F.Y. B.Sc. (Animation) **ANM-202 : ELEMENTS OF INFORMATION TECHNOLOGY**

(2021 Pattern) (Semester-II)

Time : 2 Hours]

Instructions to the candidates:

- All questions are compulsory. 1)
- Figures to the right indicate full marks. 2)
- Neat diagrams must be drawn wherever necessary. 3)

Q1) Answer the following questions.

- What is the output device? Give any two examples of output device. a)
- What is Icon? b)
- What are the uses of print preview? c)
- Define Netiquettes. List any two rule of Netiquettes. d)
- What is thesaurus in word processing? e)
- What is hyperlink f)
- Explain the ways by text data can be aligned in word processing. **g**)
- Define Document Collaboration. h)
- What is slide shorter view? i)
- What is data? **i**)

Q2) Answer any two of the following questions.

- Explain the Graphical user Interface. a)
- What is Indent? Explain three types of indentation. b)
- Explain in detail different types of software. c)
- What is Document collaboration? Explain the advantages of Document d) collaboration.

[Total No. of Pages : 2

Instructions to the candidates:

- 1) All questions are compulsory.
- 2) Figures to the right indicate full marks.

Q1) Answer the following questions.

[10×2=20]

- a) _____ is basically a form of pictorial presentation of technology.
- b) Multiple camera was introduced by walt Disney. Ture/False?
- c) _____ refers to simulated motion pictures showing movement of drawn objects.
- d) A _____ device produces anillusion of movement from a rapid succession of static pictures.
- e) Which software technique of physically manipulates an object to 2D Animation.
- f) Object oriented graphics _____.
- g) Short key of timeline is _____.
- h) Write full form of SWF.
- i) Shock wave file _____.
- j) Write short key of group.

Q2) Answer any two.

- a) What is the 2D Animation explain it with an example.
- b) What is mask and how it is use for animation?
- c) Define tweens and its type.
- d) What is vector and bitmaps?

 $[2 \times 5 = 10]$

Q3) Answer any two.

- a) What is layout in Animate? Write in brief.
- b) Difference between key frames and performance capture.
- c) Explain the recording and editing in animate.
- d) Explain the process of adding rigging a full body.

Q4) Answer any two.

- a) Write about editing audio in animate.
- b) What is frame by frame animation?
- c) Write about the interface of Adobe Animate?
- d) Write the use of fill and stroke controls.

[2×5=10]

[5904]-204

F.Y. B.Sc. (Animation) ANM-204 : 3D ANIMATION-I (MAYA) (2021 Pattern) (Semester-II)

Time : 3 Hours]

Instructions to the candidates:

- 1) All questions are compulsory.
- 2) Figures to the right indicate full marks.

Q1) Answer the following questions.

- a) Which are the object parameters of 3D object?
- b) What is Texture?
- c) Which 2 are Maya file formats?
- d) Key Board combination for Duplicate & Duplicate special.
- e) What is Hyper Shade?
- f) Name default Arnold Shader in Maya.
- g) Name any 2 modifiers.
- h) What is Merge?
- i) Name any Render Engine in Maya.
- j) What is IPR in Maya?

Q2) Answer the following questions (any 2)

- a) Explain Hyper Shade in Maya.
- b) Write 12 principles of Animation. Explain any one.
- c) What is shelf. Explain in detail.
- d) Explain Types of Lights in Maya.

S.Y. B.Sc. (Animation) ANM-301 : ANIMATION TECHNIQUE (MAYA) (2021 Pattern) (Semester-III)

Time : 3 Hours]

Instructions to the candidates:

- 1) All questions are compulsory.
- 2) Figures to the right indicate full marks.

Q1) Answer any Ten.

- a) What is cut out Animation?
- b) What is Roto?
- c) What is short cut key "Brows in Bridge".
- d) Short cut key "Increment & Save"
- e) What is CTI and what is function of CTI?
- f) How you can rotate your picture?
- g) What is Pixel?
- h) What is effects?
- i) What is Chroma?
- j) What is BG?
- k) What is masking?
- l) What is frame.

Q2) Answer all.

- a) What are the main feature of adobe after effect?
- b) What is a mask in after effects and what is the short key to select the image.
- c) Is it possible to use Photoshop files directly in after effects? If yes then how?
- d) Explain new composition?

 $[10 \times 2 = 20]$

[*Max. Marks* : 70

[4×5=20]

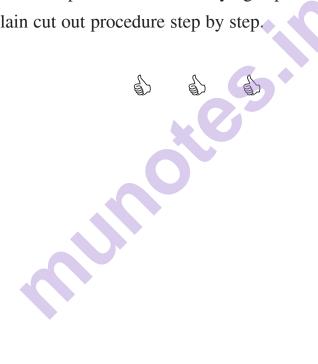

SEAT No. : [Total No. of Pages : 2 Q3) Answer any three.

- What is difference between "New composition". & "New composition a) from footage".
- b) What your understanding of masking?
- c) Explain chroma key in detail.
- d) What is content aware tool is after effect s/w.

Q4) Answer any three.

[3×5=15]

- Difference between "classic 3D" & "Cinema 3D". a)
- b) What is CC simple wire removal procedure in detail?
- c) What are the preset for chroma keying explain it?
- Explain cut out procedure step by step. d)
